SYSTEM ARCHITECTURE

Custom Express • React • MongoDB
Integrated WhatsApp • Resend • Razorpay UPI

Purpose of this Document: This manual provides the store owner, manager, and counter team with an exact operational guide. It explains every button, screen, and workflow in the platform—from how customers place orders to how your team packages equipment, generates GST invoices, assigns couriers, handles cancellations, and tracks inventory.

INDEX Table of Contents

Quick navigation directory of all sections

CHAPTER	SUBJECT TITLE & COVERED TOPICS	TARGET AUDIENCE
Chapter 1	Platform Overview & Architecture System design, offline-to-online benefits, core web endpoints, zero-commission structure.	Store Owner, Store Manager
Chapter 2	The Customer Journey (Client-Side Guide) Tool catalog browsing, OTP sign-in, cart, Kerala courier vs counter pickup, UPI / COD checkout, GST invoice preview, tracking milestones.	Store Staff, Support Desk, Customers
Chapter 3	Store Manager Operations Manual (/admin) Logging in, Dashboard KPIs, fulfilling orders, DTDC/TPC courier AWB dispatch, counter pickup verification, managing customer cancellations, adding tools, editing inventory, creating coupons, managing workshop repairs.	Store Owner, Fulfillment Team
Chapter 4	Automated WhatsApp & Email Notifications Meta WhatsApp Cloud API templates, Resend transactional emails, dynamic domain button resolution.	Store Manager, Technical Team
Chapter 5	Kerala GST Compliance & Razorpay Settlements 18% GST tax breakdown (CGST 9% + SGST 9%), invoice numbering, bank payout settlement timelines, processing online refunds.	Accountant, Store Owner
Chapter 6	Daily Routine, FAQ & Support Contacts Opening & closing store checklist, troubleshooting common questions, technical support escalation.	All Store Staff

CHAPTER 1 Platform Overview & System Architecture

How your custom digital showroom connects to your physical store in Kozhencherry

Welcome to your custom-built digital retail platform for **Variathu Power Tools**. Unlike generic third-party marketplace platforms that charge 10%–20% commission per sale, this application is **100% owned by your store**. You retain direct customer relationships, zero commission fees, complete pricing autonomy, and automatic Kerala GST compliance.

1.1 Key Business Capabilities at a Glance

Physical-to-Digital Store Synergy

Built specifically for your store at Poyanil Building, Kozhencherry. Supports both **Store Counter Pickup** (with secure pickup OTP codes) and **Kerala Express Courier Shipping** to all 14 districts in Kerala.

IN Kerala GST 18% Compliant Invoicing

Generates legally compliant Tax Invoices showing taxable value, CGST 9%, SGST 9%, HSN codes, and your shop GSTIN. Invoices can be viewed and printed directly by both you and the customer.

Dual Multi-Channel Notifications

Every order event automatically triggers **Meta WhatsApp Cloud API** messages and **Resend Transactional Emails** with your store logo. Zero manual typing required by your staff.

Instant UPI & COD Payment Processing

Customers can pay instantly using Google Pay, PhonePe, Paytm, QR code scanning, Debit/Credit cards, or choose Cash on Delivery / Counter Payment upon collection.

1.2 Platform Web Addresses & Portals

PORTAL NAME	URL ROUTE	PRIMARY USERS	KEY FUNCTIONS
Storefront Home	/	Public Visitors	Featured machinery, brand spotlights, shop location, workshop overview.
Catalog & Shop	/shop	Contractors, Buyers	Filtering by brand, power watts, category; live pricing and in-stock counts.
Customer Portal	/account	Logged-in Customers	Order status tracking, GST invoice PDF download, cancel order requests.
Store Admin Portal	/admin	Store Owner, Manager	Fulfilling orders, courier tracking assignment, product edits, inventory.
Staff & Client Login	/login	Customers & Staff	Customer OTP sign-in and Store Manager PIN authentication.

CHAPTER 2 The Customer Journey (Client-Side Guide)

Step-by-step walkthrough of how contractors and retail buyers use your website

This chapter describes the entire shopping, ordering, and tracking process from the buyer's perspective. Understanding this allows your counter staff to assist callers or walk-in customers efficiently.

1 Browsing Machinery & Filtering Tools (/shop)

Customers visit the catalog where they can search by keyword (e.g., "Rotary Hammer", "Angle Grinder") or filter by:

- **Brand:** Bosch, Makita, DeWalt, Stanley, Hikoki, etc.
- **Category:** Heavy Machinery, Cordless Power Tools, Diamond Cutting & Blades, Welding, Safety.
- **Motor Power:** Filter by Wattage (e.g., 650W to 2200W) or Cordless Battery Voltage (18V, 20V Max).
- **Price & Availability:** Real-time in-stock badges prevent customers from ordering unavailable tools.

2 Customer Sign-In & OTP Verification (/login)

Customers do **not** need to remember complicated passwords. They simply enter their 10-digit Indian Mobile Number and/or Email:

- The system generates a secure **6-digit OTP code** valid for 10 minutes.
- The OTP is dispatched instantly to both the customer's WhatsApp and Email.
- Once entered, the customer's account, shipping address, and past invoices are automatically loaded.

3 Persistent Cloud Shopping Cart (/cart)

Customers can adjust quantities, view live GST estimates, and enter discount promo coupons. Because the cart is synchronized with your cloud database, if a customer adds tools on their smartphone, the items remain in their cart when they open their laptop later.

4 Checkout & Fulfillment Method Selection (/checkout)

During checkout, the buyer selects how they wish to receive their equipment:

Option A: Counter Pickup (Kozhencherry)

Customer collects in person at Poyanil Building.
Zero shipping fee. The customer receives a secure **4-digit Pickup OTP** to show at the counter.

Option B: Kerala Express Courier

Delivered directly to the customer's home, site, or workshop. The customer enters their Kerala District, street address, and 6-digit Pincode.

5 Payment Options: UPI / Online vs Cash on Delivery

The platform gives buyers flexibility tailored to Kerala commerce habits:

- **Instant UPI (Google Pay, PhonePe, Paytm, BHIM):** One-tap checkout via UPI Intent or scanning a dynamic QR code on screen. Payments are verified instantly and deposited into the store's bank account.
- **Debit & Credit Cards / NetBanking:** All major Indian banks supported via Razorpay.
- **Cash on Delivery (COD) / Counter Cash:** Customer pays when courier delivers to their door or when picking up at the Kozhencherry shop.

6 Order Confirmation & Automatic Tax Invoicing

Immediately upon order placement:

- The customer sees an on-screen confirmation card with their unique **Order ID (e.g., #VPT-1082)**.
- A complete Kerala GST Tax Invoice is generated showing itemized machinery, 18% GST (CGST 9% + SGST 9%), and barcode.

- An automated confirmation WhatsApp and Email are dispatched with a direct button to track the order.

2.1 Customer Account Portal & Self-Service (`/account`)

Customers can access their account dashboard anytime to manage their orders without calling your shop.

Live Milestone Tracking

Visual progress tracker showing the current status:
Order Placed • Processing • Dispatched via Courier • Delivered. If dispatched, the courier partner name (e.g. DTDC Express) and clickable AWB tracking code are displayed.

GST Invoice PDF Download

Buyers can view and print their statutory Kerala GST invoice anytime with one click. Ideal for commercial contractors claiming GST input tax credit (ITC).

How Customer Order Cancellation Works:

Customers can cancel any pending order directly from their account dashboard by clicking "**Cancel Order**" and typing their reason (e.g., "*Duplicate order placed by mistake*"). If the order is already in transit with a courier, the system submits a formal **Cancellation Request** to your Store Manager dashboard for review, preventing unauthorized mid-transit cancellations.

CHAPTER 3 Store Manager Operations Manual (`/admin`)

Master guide for store owners, fulfillment managers, and counter staff

The Store Admin Portal is your centralized command center for handling orders, couriers, catalog items, pricing, inventory stock, and customer interactions.

3.1 Accessing the Admin Portal

1 Open the Portal URL

Go to `https://toolsshop-pied.vercel.app/admin` or click the "Store Portal" link in the website footer.

2 Enter Store Credentials

Email: `admin@variathupowertools.com` • Store Master PIN / Password: `admin12345`

3.2 Dashboard KPI Metrics Bar

At the top of the dashboard, four real-time KPI cards give you an immediate snapshot of your business health:

TODAY'S SALES

₹24,850

Live gross revenue

ACTIVE ORDERS

8 Orders

Needs dispatch / pickup

LOW STOCK ITEMS

3 Tools

Stock count $\leq$ 3

CANCELLATION REQ

1 Pending

Needs manager review

3.3 Complete Order Fulfillment Workflow (Step-by-Step)

When an order arrives, follow this standard operating procedure (SOP):

A

Review Incoming Order Details in Orders Tab (?tab=orders)

New orders appear at the top with a yellow badge **ORDER PLACED**. Click on the order to inspect the items, customer phone number, delivery address, and payment method (COD vs Paid Online).

B

Fulfill Courier Shipments (DTDC / TPC / APS Cargo)

If the customer selected **Courier Express**:

1. Pack the power tools securely with warranty card and power accessories.
2. Click the blue " 🚚 Dispatch via Courier " button on the order card.
3. A modal opens. Select the courier partner:
 - **DTDC Express** (Red & Blue Surface Express)
 - **The Professional Couriers (TPC)**
 - **Alleppey Parcel Service (APS Cargo)** (For heavy machinery like 16kg Breakers)
4. Enter the tracking number (AWB) or click "Generate AWB".
5. Click "Confirm & Notify Customer".

Automatic Trigger: The customer receives an immediate WhatsApp and Email stating: "Your tools are on the way with DTDC (AWB: D58291042). Track live here."

C

Fulfill Store Counter Pickups (Poyanil Building, Kozhencherry)

If the customer selected **Store Counter Pickup**:

1. Pull the machinery from your showroom shelf or stock room.
2. Click "Mark Ready for Pickup". The customer is automatically alerted via WhatsApp with pickup hours and directions to Poyanil Building.
3. When the customer arrives at the counter, ask for their **4-digit Pickup OTP** (visible on their phone screen or SMS).
4. Verify the OTP, hand over the tools, and click "Mark Completed".

D

Marking Orders as Completed & Kerala GST Invoicing

Once delivered by the courier or collected at the counter, change status to **COMPLETED**. Click the " 🖨️ Print GST Invoice " button to print a physical tax invoice copy for your tax file or accounting register.

3.4 Managing Customer Cancellation Requests (

?tab=cancellations

)

When a customer asks to cancel an order, it appears in your dedicated **Cancellations Tab** with the customer's stated reason in a prominent yellow box.

Option A: Approve Cancellation

Use if the equipment has not yet left your store.

- Order status updates to

CANCELLED

.
- Machinery stock is automatically restored back into inventory.
- Online payments trigger an automatic refund breakdown notification.
- Customer receives an automated cancellation confirmation email.

Option B: Reject Request

Use if the shipment is already handed to the courier and cannot be recalled.

- You enter a clear rejection explanation (e.g. *"Parcel already in transit with DTDC AWB D58291042"*).
- Order remains active in transit.
- Customer is notified with instructions on how to return upon delivery.

3.5 Inventory & Stock Management (

?tab=inventory

)

You have full control over your machinery catalog. No developer assistance is required to update prices, stock, or tools.

ACTION	STEP-BY-STEP INSTRUCTIONS	IMPORTANT NOTES
Adding a New Tool	1. Click the red " + Add New Tool " button. 2. Enter Title (e.g., <i>"Bosch GBH 2–26 DRE Rotary Hammer"</i>). 3. Select Brand (Bosch, Makita, etc.) & Category. 4. Enter Selling Price, MRP, and Stock Quantity. 5. Enter Power Specs (e.g. <i>"800W • 26mm Concrete Capacity"</i>). 6. Paste Image URL and click "Save Tool".	All tools automatically inherit the standard 18% Kerala GST slab.
Editing Price or Stock	1. Find the tool using the search bar or category filter. 2. Click the "  Edit " icon on the product card. 3. Update the price or increment stock count. 4. Click "Update Product".	Changes reflect instantly across the entire customer shop in real time.
Marking Out of Stock / Deleting	- Set stock to 0 to display a gray <i>"Out of Stock"</i> badge. - Click the "  Delete " icon to permanently remove discontinued models.	A confirmation safety modal prevents accidental deletions.

3.6 Customer Directory & CRM (

?tab=customers

)

Your platform maintains a database of all registered retail and commercial customers:

- ✓ **Lifetime Spend Tracking:** Identifies your most valuable commercial contractors and frequent buyers.
- ✓ **One-Click WhatsApp & Calling:** Click the green WhatsApp button next to any customer to open a pre-filled direct chat to their phone number.
- ✓ **Complete Order History:** View every single drill, grinder, or cutter a customer has ever purchased from you, making warranty verification effortless.

3.7 Creating Promo Coupons & Discounts ([?tab=coupons](#))

Boost seasonal sales (e.g. Onam Festival, Vishu, Kerala Construction Season) by offering discount codes:

1 Create New Coupon

In the **Coupons Tab**, click "+ Create New Coupon".

2 Configure Coupon Rules

Code: • Type: **Percentage (10% off)** or **Flat Discount (e.g. ₹500 off)**.

Set Minimum Cart Spend (e.g., ₹5,000) and Max Uses per Customer.

3 Track Coupon Redemptions

The dashboard displays how many times each coupon has been used and the total revenue it generated.

3.8 Workshop Repairs & Tool Clinic Management ([?tab=repairs](#))

Your Kozhencherry workshop servicing clinic is fully automated for customer communications and counter handovers:

1. Logging Inward Tool ("Received")

When a customer brings damaged machinery to Poyanil Building, click "+ Log Inward Tool":

- Enter Customer Name & WhatsApp Phone Number.
- Select Tool Brand (Bosch, Makita, etc.) or choose "**Other Brand**" to type a custom brand (e.g., *iBell, Dongcheng, Cumi*).
- Enter Tool Model, Problem, Estimated Cost, and Advance Paid.
- **Automated WhatsApp:** The customer receives an immediate confirmation WhatsApp with their Ticket ID (#VPT-REP-XXXX) and workshop helpline.

2. Repaired & Ready ("Secret OTP Handover")

Once repaired and safety-tested, click "**2. Repaired & Ready**":

- **Automated WhatsApp with Secret OTP:** The customer automatically receives a WhatsApp message containing their secret **4-digit collection OTP**, final bill, and Poyanil Building pickup hours.
- **Tamper-Proof Security:** The OTP is *never* displayed on the store dashboard, ensuring staff must physically verify the code from the customer's phone before releasing the tool.
- **Counter Handover & Auto-Receipt:** Enter the customer's 4-digit code and click "**Verify & Deliver**". The system instantly dispatches a **digital handover receipt** via WhatsApp with the settled balance and workshop service guarantee terms!

Updating Estimates & Additional Spare Parts:

If a technician inspects a machine and discovers additional damage or required parts (e.g. armature bearings, carbon brushes, switch replacement, stator rewinding): Click "**Update Bill & Parts**" on the ticket. Enter the revised total bill, advance paid, and technician diagnosis notes. The system calculates the remaining balance and can automatically send an **Estimate Revision WhatsApp** to the customer explaining the parts needed!

Instant Search Bar: Use the search bar at the top of the Workshop tab to instantly filter repair jobs by customer name, 10-digit mobile number, tool brand/model, or ticket number (e.g. *VPT-REP-2433*).

Automated WhatsApp & Email Notifications

Zero-touch customer communication across Meta WhatsApp Cloud API & Resend

Your platform operates a **hands-free automated notification engine**. Your staff never needs to type customer messages manually.

CUSTOMER MILESTONE	WHATSAPP NOTIFICATION TRIGGER	TRANSACTIONAL EMAIL LAYOUT
Order Placed	Order summary, amount, Order ID #, pickup code or address confirmation.	Official logo header, items table, GST breakdown, button: <i>"View Order & GST Invoice"</i> .
Dispatched via Courier	Courier partner name, AWB tracking number, direct link to courier tracking portal.	Courier badge, tracking card, destination address, button: <i>"Track Shipment & Status"</i> .
Ready for Store Pickup	Pickup instructions, Poyanil Building address, counter opening hours, 4-digit OTP.	Store counter location map card, pickup OTP verification code banner.
Order Completed	Thank you message, tool warranty reminder, Kozhencherry repair clinic helpline.	Completed banner, authorized service center notice, button: <i>"Download GST Invoice"</i> .
Workshop: Inward Tool Logged	Immediate confirmation with Ticket ID (#VPT-REP-XXXX), reported issue, and workshop helpline.	Digital service intake record logged in database.

CUSTOMER MILESTONE	WHATSAPP NOTIFICATION TRIGGER	TRANSACTIONAL EMAIL LAYOUT
Workshop: Estimate / Parts Update	Revised bill breakdown, technician diagnosis of replaced spare parts, and balance due at counter.	Live balance calculation updated on store dashboard ticket.
Workshop: Repaired & Ready	Machine ready alert, diagnosis notes, final bill & balance, plus secret 4–digit OTP .	Counter collection instructions and showroom map link.
Workshop: Handed Over to Customer	Digital Handover Receipt: Settled payment statement, collection timestamp & workshop service guarantee terms.	Service record marked completed and archived in customer CRM history.
Cancellation Update	Instant confirmation of order cancellation and refund status.	Reason callout box, refund breakdown, catalog link: <i>"Browse Our Power Tools"</i> .

Dynamic Domain Intelligence:

All buttons inside transactional emails automatically adapt to your live domain. Whether the site is accessed on your temporary Vercel link or your future permanent custom domain (e.g., *variathupowertools.com*), customers are always directed to the correct active website without broken links.

CHAPTER 5

Kerala GST Compliance & Razorpay Settlements

Accounting standards, tax compliance, and automated bank settlements

Under the Central Goods and Services Tax (CGST) and Kerala State Goods and Services Tax (SGST) acts, standard power tools and machinery fall under the **18% GST Bracket**. Your platform automatically calculates and separates these figures:

5.1 Statutory Kerala GST 18% Tax Structure

TAX COMPONENT	RATE	APPLICABILITY	EXAMPLE ON ₹11,800 TOOL
Taxable Value (Base)	84.75%	Net Machinery Selling Price	₹10,000.00
CGST (Central Tax)	9.00%	Central Government Share	₹900.00
SGST (Kerala State Tax)	9.00%	Kerala State Government Share	₹900.00
Total Customer Invoice	18.00% Total Tax	Final Amount Paid by Buyer	₹11,800.00

When a customer pays online via UPI (GPay/PhonePe) or card:

5.2 Razorpay Bank Settlement Schedule

- ✓ **Instant Capture:** Payment is immediately verified; the order is confirmed without counter delay.
- ✓ **Direct Bank Payout (T+1 / T+2):** Razorpay automatically transfers accumulated funds directly into your shop's Current Bank Account according to standard Reserve Bank of India (RBI) merchant settlement rules.
- ✓ **0% Merchant Risk:** Fraudulent or failed bank transactions are intercepted immediately; orders are only placed if payment is successfully captured.

CHAPTER
6

Daily Routine, FAQ & Support Contacts

Standard operating procedure for the store manager and counter staff

6.1 Daily Store Team Checklist

Morning Routine (09:00 AM)

- Log into **/admin** using your store credentials.
- Filter Orders by **ORDER PLACED**.
- Check for overnight orders and print physical picking slips.
- Prepare equipment packages and verify warranty cards.
- Review the **Cancellations Tab** for any urgent morning requests before booking couriers.

Evening Closing (07:30 PM)

- Hand packages to DTDC / TPC / APS courier pickup van.
- Enter all courier AWB tracking numbers into the system.
- Check counter pickup shelf: Confirm any collected orders by clicking "*Mark Completed*".
- Review inventory low-stock alerts for tomorrow's distributor reorder.
- Sign out of the admin portal.

6.2 Frequently Asked Questions (Store Owner FAQs)

Q: What if a customer says they didn't receive their pickup OTP?

A: Open the order in the Admin Orders Tab. Counter staff can verify the customer by matching their mobile number and Government ID (Aadhaar / Driving License). Once verified, you can mark the order as Completed manually.

Q: Can we change prices during special festival promotions?

A: Yes! Go to the **Inventory Tab**, search for the item, click the pencil icon, enter the new promotional price, and click "Update Product". It updates instantly. You can also create a promo coupon (e.g. *ONAM10*) in the Coupons Tab instead of changing product base prices.

Q: How do we handle heavy items like 16kg Demolition Breakers that standard couriers won't carry?

A: When clicking "Dispatch via Courier", select **Alleppey Parcel Service (APS Cargo)** from the dropdown. APS Cargo specializes in heavy freight and machinery across all Kerala towns.
